RE: Report on Noncredit Career Development and College Preparation for 2017-2022

Dear Gov. Newsom:

Pursuant to California Education Code section 84760.5, the California Community Colleges Chancellor's Office, and the Board of Governors for California Community Colleges (Board of Governors) is pleased to release the 2017-2022 Career Development and College Preparation report on noncredit enhanced funding. The California Community Colleges serve more than 1.8 million students and is the largest system of higher education in the nation.

If you have any further questions on this report, please contact Vice Chancellor of Government Relations David O'Brien at DObrien@CCCCO.edu.

Sincerely,

A handwritten signature in black ink that reads "Sonya Christian".

METHODOLOGY

This report contains a frequency count of the Career Development and College Preparation noncredit courses and certificates for fiscal years 2017-18 through 2020-22 as required by California Education Code Section 84760.5(e).

The Chancellor's Office resources used for information include:

- California Community Colleges Chancellor's Office Management Information System, which collects data from all the colleges
- Fiscal Affairs Division apportionment data

The Educational Services and Support staff analyzes and calculates data regarding the number and types of certificates, related courses, and full-time equivalent students (FTES). These results are presented in tables by community college district.

BACKGROUND

Senate Bill (SB) 361 (Scott/chapter 631, statutes of 2006) provided the community college funding for credit and noncredit full-time equivalent students, as well as the noncredit Career Development and College Preparation (CDCP) courses. The legislation was signed into law by Governor Arnold Schwarzenegger and filed with the secretary of state on September 29, 2006. The statewide minimum requirements that community colleges must meet to qualify for enhanced funding for Career Development and College Preparation courses are set forth in Education Code section 84760.5. The statute provides the fundamental framework for defining Career Development and College Preparation noncredit courses and classes that are eligible for the higher ("enhanced") rate of funding.

Education Code section 84760.5 defines Career Development and College Preparation courses eligible for enhanced funding as:

- Those for which no credit is given, and that are offered in a sequence of courses leading to a certificate of completion; and
- Those that lead to improved employability or job placement opportunities; or
- Those that lead to a certificate of competency in a recognized career field by articulating with college-level course work, completion of an associate degree or transfer to a four-year degree program.

In addition, only those courses subject to subdivision (a) of 84760.5 are eligible for enhanced funding, which limits eligibility to the following:

- Classes and courses in elementary and secondary basic skills;
- Classes and courses for students eligible for educational services in workforce preparation classes in the basic skills of speaking, listening, reading, writing, mathematics, decision-making and problem-solving skills that are necessary to participate in job-specific technical training;

- Short-term vocational programs with high employment potential, as determined by the California Community Colleges chancellor in consultation with the Employment Development Department utilizing job demand data provided by that department; and
- Classes and courses in English as a second language and vocational English as a second language.

Starting in fiscal year 2006-07, Education Code sections 84750.5(d)(3) and (d)(4), established a uniform rate for noncredit courses as well as an enhanced rate for noncredit courses in Career Development and College Preparation. Since 2006, the rates have been amended for cost-of-living adjustments as provided in the annual Budget Act. In 2014-15 the California State Legislature approved the enhanced noncredit rate to be equivalent to the credit rate beginning July 1, 2015. The approved 2015-16 California State Budget included \$49 million to fund the rate increase. The 2021-22 enhanced noncredit rate per FTES is \$5,907.

NONCREDIT CDCP FTES

The table below provides a five-year comparison of noncredit CDCP FTES by community college district. The analysis is prepared in accordance with the requirement of subsection (e) (1) of Education Code statute 84760.5.
