DSPS Coordinator:

Date Submitted:

Title 5 Implementing Guidelines Section 56026 Support Services

"A college will elect to offer services based on the population of students with disabilities served. All services addressed in Section 56026 are discretionary notwithstanding State and Federal law. The college can determine which services are best provided by the DSPS office or by other departments on the campus."

If the college chooses to provide certain services outside of the DSPS office (i.e., parking permits, registration, etc.) these services cannot be used as DSPS contacts with the students and DSPS funds cannot be used to support them.

"The college should file an addendum to the campus DSPS Program Plan listing any additions or elimination of services."

Therefore, if you have made significant additions to your program or have eliminated a service(s) from those originally stated in your DSPS Program Plan approved by the Chancellor's Office, please describe them.

DSPS Program Additions:

DSPS Program Service Eliminations:

Certification of the DSPS Program Plan Addendum

COLLEGE/DISTRICT CERTIFICATION

We hereby certify the foregoing page(s) to be accurate. We also certify that DSPS funds are not used to supplant existing services and are used to provide specialized services to DSPS students. As a condition of receiving Title 5 funding, the college agrees to complete and submit all requested reports to the System Office and comply with all legal requirements and guidelines of the program.
