## DATA ELEMENT DICTIONARY

### Data Reporting Domains and Formats

#### STUDENT FINANCIAL AID RECORDS

Reporting Domain: The following record layout indicates the format in which the districts report information on students who are applicants for financial aid. Report a record for each student who applies for financial aid and meets the Student Basic (SB) data reporting domain requirements in at least one term during the academic year. If the student received financial aid, then a SB record must have been reported for every term the financial aid was received.

The file with these records is submitted annual each October for the previous year.
