Session Data Elements

DED#	DATA ELEMENT NAME	FORMAT
XF00	SESSION-IDENTIFIER	X(02)
This element uniquely identifies a session within a section.		

Coding	Meaning
A letter is entered in the first position to indicate the kind of session and is followed by a sequencing digit (or letter if needed) in the second position.	
FIRST POSITION	
A	Required for all students enrolled in the section. This is the standard kind of session.
C	Each student must choose precisely one of the "C" type sessions if any are scheduled for the section. This may be used, for example, to schedule two or more laboratory sessions for students in the same lecture session where it is desirable that each lab have fewer students than the lecture.
SECOND POSITION	
0-9	A digit between "0" and "9", or, in cases where there are more than ten sessions of the same type in a single section, letters "A" through "Z" may be assigned sequentially.
