DATA ELEMENT DICTIONARY

Student Enrollment Derived Data Elements

<u>DED #</u>	<u>DATA ELEMENT NAME</u>	<u>FORMAT</u>
SXD4	TOTAL-HOURS	9(6)V9

This element was derived by using the Enrollment-Positive-Attendance-Hours (SX05) as a flag to determine whether the enrollment is a positive attendance section or a weekly, daily, or independent studies section. If the positive attendance hours = 888.8, then the numeric value found in Section-Total-Hours (XBD4) will be used. Otherwise, this element will contain the numeric value in the Enrollment-Positive-Attendance-Hours (SX05). The purpose of deriving this element was to save costs in calculating WSCH.

VARIABLES

SX05 ENROLLMENT-POSITIVE-ATTENDANCE-HOURS
XBD4 SECTION-TOTAL-HOURS

CODING

This is a numeric field with seven digits, six before and one after the implied decimal point (accurate to the hundredths).

Other Classes:

If the Section-Accounting-Method (XB01) is Other Classes, this element will be filled with "888888.8".

MISSING DATA

If Section-Accounting-Method is missing, this element will be set to "888888.8".

Weekly, Daily, or Independent Study: If the Section-Account-Method is Weekly, Daily, or Independent Study and there were no session records reported for this section or all Session-Total-Hours for this section were reported as spaces (group 3, allowed prior to 1/1/95), this element will filled with "999999.9".
