This report covers a three year period from 95/96 to 97/98.											
All students accounted for in the report had a Student Headcount Status (STD7) of "A", "B", "C" or "F" in at least one term during the 95/96 academic year.											
The counts indicate where students were as of the 95/96 academic year. If a student took a basic skill course there and the higher level course at another school, they will be counted with the 95/96 school's group.											
Basic skills course are those with a Course Basic Skills Status (CB08) of "P" or "B".											
English courses (including ESL) are those that have a Course Program Code (CB03) of: 1501**,1503**,1504**,1507**, 4930.21, 4930.70, 4930.71, 4930.80, 4930.81, 4930.82, 4931.00.											
Mathematics courses are those that have a Course Program Code (CB03) of: 17**,**,4930.40, 4930.41, 4930.42.											
To be counted as "Improved" a student must have enrolled in a basic skills course, then in a subsequent term, they must enroll in course with a course program code in the same group but which is at a higher level. For example, if a student enrolls in a basic skills math course with a course program code of 4930.40 in the Fall of 1995 and then in the Fall of 1997 enrolls in a math course with a course program code of 1701.70 and a Course Credit Status (CB04) of "D", that student counted as being "Improved" in mathematics.											
A student was also counted as "Improved" if they enrolled in a course whose Course Prior to College Level (CB21) value was higher than a previous course enrolled in with a course program code in the same group. For example, if a student enrolled in an ESL course with a course program code of 4930.80 and a course prior to college level of "C" in the Spring of 1996. Then in the Fall of 1997 they enrolled in a writing course with a course program code of 4930.21 and a course prior to college level of "B". That would be counted as "Improved" in English.											
A student is only counted once in mathematics and/or English regardless of how many times they improve.											
To be considered "Improved", the higher level course must have been completed with a grade of C or better. To be considered "Improved" in noncredit courses the student must have attended at least 75% of the total possible hours of attendance in the higher level course.
