## DATA ELEMENT DICTIONARY

### Data Reporting Domains and Formats

#### SESSION DATA RECORD

Session records occur as many times as there are sessions in a section. Sections have more than one session when it is scheduled at different times on different days, or in a different facility or with several instruction methods. The different sessions have the same SECTION-IDENTIFIER and are differentiated by SESSION-IDENTIFIER.

Reporting Domain: Report records for every session offered at the reporting college in which students reported in the Student Basic (SB) file were enrolled.
