Recommended By:	 Van Ton-Quinlivan, Vice Chancellor, Workforce & Digital Futures Sandy Fried, Executive Director, Student Success Center	Consent/Routine	
		First Reading	
Approved for Consideration:	 Eloy Ortiz Oakley , Chancellor	Action	
		Information	X

ISSUE: At the September 2017 meeting, the Board of Governors was briefed on the ideation process of the Flex Learning Options for Workers (FLOW) workgroup. At the November 2017 Board Meeting, representatives from the National Center for Higher Education Management Systems (NCHEMS) will join the Chancellor’s Office to present an update on draft FLOW options under consideration.

BACKGROUND:

In the spring of 2017, Governor Jerry Brown asked California Community Colleges (CCC) Chancellor Eloy Ortiz Oakley to establish a community college that exclusively offers fully online degree programs to make college more accessible and affordable.

Since then, the Board of Governors has adopted [Vision for Success](#), a document which calls for the community college system to better serve working adults in order to meet California’s workforce needs

In order to address these challenges, Chancellor Oakley convened a workgroup to develop a plan to provide 3 to 5 options that enable the community colleges of California to better deliver on student success goals through online opportunities. With a delivery deadline of November 2017, the work group is co-chaired by CCCCCO Vice Chancellor for Workforce and Digital Futures Van Ton-Quinlivan and Cerritos Colleges President Jose Fierro and has representation from the Academic Senate (ASCCC) and other system representatives. *(Background cont.)*

RECOMMENDATION: This item is presented for informational purposes.

(Background cont.)

Chancellor Oakley has defined the target population for the proposed options as ‘adults with some college and no certification’ as well as ‘working adults with vocational needs’ to enable them to earn certifications that lead to better workforce outcomes.

In order to meet the November deadline established by the Governor, the Chancellor’s Office has engaged the National Center for Higher Education Management Systems ([NCHEMS](#)) to work with the system stakeholders and online thought leaders to develop these options.

The Kresge Foundation is providing funds to underwrite NCHEMS’s participation thanks to the outreach of the Foundation for California Community Colleges and the Success Center.

The scope of work for the group includes the following:

- Identify those whom the California community colleges are not currently serving well through traditional education delivery models.
- Identify online education models that will reach these students and best facilitate their completion of useful credentials.
- Determine how the California context factors into the creation of possible options, including existing models.
- Identify 3-5 options along with pros, cons, and associated challenges.

Draft versions of the options will be posted on the web in early November with an opportunity for public comment.

Project FLOW workgroup members include:

Cheryl Aschenbach

Co-chair, OEI Steering Committee, ASCCC Executive Committee member, Professor of English, Lassen College

Carlos O. Turner Cortez

President, San Diego Continuing College

Anthony Culpepper

Chief Business Officer, Glendale Community College

Chris Ferguson

Principal Program Budget Analyst III, California Department of Finance

Jose Fierro (work group co-chair)

President, Cerritos College

Sandy Fried

Executive Director, Success Center, Foundation for California Community Colleges

Jennifer Hernandez

California Department of Labor

Raymond Kaupp

Director of Workforce Development, College of San Mateo

Jory Hadsell

Executive Director, Online Education Initiative (OEI)

Judy Heiman

Principal Analyst, California Legislative Analyst's Office

Paul Jarrell

Executive Vice President, Educational Programs, Santa Barbara City College

Ross Miyashiro

Vice President of Student Services, Coastline Community College

Joe Moreau

Vice Chancellor of Technology & Chief Technology Officer, Foothill-De Anza College District

Lissette Y. Padilla

Academic Advising Specialist II, West Hills Community College District Lemoore Campus

Michelle L. Pilati

Co-Chair, OEI Consortium, Professor of Psychology, Rio Hondo College

Treva Thomas

Member, OEI Consortium, Distance Education Coordinator, Lake Tahoe Community College

Van Ton-Quinlivan (work group co-chair)

Vice Chancellor Workforce & Digital Futures, California Community Colleges

Karen Surratt

Potential FLOW Student, Sole Proprietor of Karen's Heritage Day Care

External experts offering insights:

Jay Box, President

Kentucky Community and Technical College System

Adrian Sannier, Senior Technology Fellow

Arizona State University

Spencer Stewart, Chancellor

Western Governors University, Nevada

Since the September Board of Governors briefing, additional experts have been interviewed based on the discussions of the workgroup.
