ISSUE: This item presents the proposed 2018-19 California Community Colleges Budget and Legislative Request for approval of the Board of Governors.

BACKGROUND: Education Code section 70901(b)(5)(A) directs the Board to prepare and adopt an annual system budget request, using the Consultation Process established under state law. The budget request is focused on local assistance to community college districts that is funded under Proposition 98. The local assistance budget is distinct from the Chancellor’s Office budget and capital outlay budget, which is largely funded with bonds and is separately reviewed by the Board.

RECOMMENDATION: The Board vote to approve the proposed 2018-19 Budget and Legislative Request for timely transmittal to the Department of Finance, Governor’s Office, Legislature and other interested parties.

ANALYSIS: Historically, the Governmental Relations and Finance & Facilities Planning Divisions of the Chancellor's Office have worked independently to develop and present annual budget and legislative requests to the Board of Governors. In approaching the 2018-19 budget and policy agenda, the Chancellor's Office determined that change was necessary. Recognizing the interconnectedness of the Legislative fiscal and policy processes, and the need to collaborate and integrate across Chancellor's Office divisions, this document represents a combined California Community Colleges' Board of Governors' 2018-19 Budget and Legislative Request.

The timing of the release of the Vision for Success and the requirements of the budget cycle meant that the traditional process for consultation had to be condensed. Members of Consultation Council as well as internal and external stakeholders were invited to a joint legislative and budget planning meeting on August 21, 2017. This meeting provided an opportunity for the Chancellor's Office to provide an overview of budget and policy priorities and allow participants to submit additional items for consideration.

This request reflects the funding and policy priorities necessary to advance the goals outlined in the strategic vision, and identifies the following priorities:

- Base increase to provide flexible funding to provide high-quality educational opportunities
- Promise programs to assist students transitioning from high school to community college
- Financial aid that reflects the total cost of attendance to help students succeed
- Additional resources for full-time and part-time faculty
- Expansion of online learning options for students
- Support for a culture of data-informed decision-making

The system budget request for 2018-19 totals approximately \$382.5 million, the specific recommended funding increases are described in the attached 2018-19 Budget and Legislative Proposal.
