

# Technical Corrections

## Sector Navigator Grant RFA

All the changes seen below have now been revised and posted within the original RFA documents. This document will allow applicants to track those changes.

1. Within the Sector Navigator Grant RFA, Appendix C Guidelines, Definitions and Allowable Expenditures – we revised and replaced the Consolidation of Regional Submissions table.
2. Page 21 in the Instructions Terms and Conditions RFA under Reporting Requirements Year—to Date Expenditures and project report paragraph two stated: Year-to-Date Expenditure and Progress Reports not certified by the due date (see Article I, Section 4. Reporting) will be paid in the subsequent payment cycle. If the final report is not received and approved by December 31, 2012 the allocation recipient can lose up to 10% of their funding.

The December 31, 2012 date has been changed to December 31, 2014.

3. Page 15 in the Instructions Terms and Conditions RFA under RFA Specification what should have said funding period said the following:

**Fudging Period:** 7/1/13 through 6/30/14

This error has now been corrected to say funding period.
