Noncredit Enrollment: Open Entry/Open Exit vs. Managed Enrollment

Noncredit Webinar
June 2, 2017

Glendale Community College: Maria Czech, Jan Young
Mt. San Antonio College: Liza Becker, Dana Miho, Donna Necke
Open Entry/Open Exit Enrollment

• **5 CCR 58164:** The term “open entry/open exit courses” refers to courses in which students enroll at various times, and complete at various times or at various paces. Open entry/open exit courses may be conducted as either credit or noncredit courses and may be offered with or without regularly scheduled hours.

• **5 CCR 58003.1:** For all open entry-open exit credit courses and for all noncredit courses otherwise eligible for state aid, except distance education courses, the units of FTES shall be computed by dividing actual student contact hours of attendance by 525.
Advantages to Open Entry/Open Exit

• Students can enter any time during the term (when it is convenient for them and when they are motivated.)

• Research shows the first three weeks in a program are the most critical to establish students’ motivation and persistence. (Quigley)

• Students progress at their own pace. Grading can still reflect students’ progress, (SP) and repeatability allows student to remain in the course until the desired skills are acquired.

• Students can re-enter when time and external factors permit.
Challenges to Open Entry/ Open Exit

• Students must play “catch up” if miss foundational work presented in the classroom (self-paced courses are not affected.)
• Instructors must provide differentiated learning and scaffolding to accommodate different levels of learning (also based on students’ prior knowledge.)
• Advantages of creating a classroom cohort are somewhat diluted.
Glendale College Noncredit Offerings

    • Library workshops
    • Visits to credit Learning Centers
Open Entry/Open Exit at Mt. SAC
Faculty Perspective

• Always have a “Plan B”
• Each class is self contained with the assumption students have no prior knowledge yet includes challenging material for core attendees
• Each class has icebreakers built-in to welcome new students and establish a feeling of community
• Patience, Empathy, Thoughtfulness
• Assemble an awesome staff who is responsive to student needs
• Tap into the positive student leaders who form core group of regular attendees for mentoring
• Services need to come to students
Managed Enrollment Overview

• **Enrollment**: Enrollment is open for a specified timeframe
• **Course Access**: Course start and end dates are clearly published
• **Absences**: Prescribed by program and affect class status
• **Priority Registration**: Students in good standing based on attendance receive priority in subsequent term
• **Repeatability**: May set repeatability limitations per course; student must re-enroll to repeat the course

Managed Enrollment Criteria for Success

• Enrollment policies based on needs of the students and the program
• A continuum rather than all-or-none – i.e., process and structure may vary by program type even within the same department
• Requires ongoing data analysis and data-driven decisions when setting policies for entry dates, allowable absences, adding students from wait list
• Policies clearly published and information such as data and outcomes are shared with all stakeholders – faculty, students, community
Benefits and Challenges of Managed Enrollment

Benefits

• Students show stronger persistence and improved learning gains; have equitable access to the programs
• Program has structure and consistency in it’s operations and braided services
• College’s apportionment is more efficient (more FTES), especially with larger programs

Challenges

• Labor-intensive in terms of data collection and analysis
• Requires standardized practice by faculty and staff
• Policy or process changes need must be passed along quickly to all stakeholders (with explanation)
Managed Enrollment at Mt. SAC

- Banner System + ESL Database help track data
- Assessment/Placement: ESL Computer Adaptive Placement Test (in-house)
- Priority registration dates for continuing students in good standing
- 1st Day of attendance mandatory
- Enrollment Management:
  - 16-Wk Level Classes: Test and hold after 12th week
  - 14-Wk Skills: Test & hold after 13th week
  - VESL Career Paths closed after 2nd week
- Repeat Policy: Intermediate or higher may repeat course twice prior to intervention
- Wait Lists & Weekly Class Counts help to maximize access and efficiency
Faculty submit weekly count of students actively coming to class and number of seats available for new students on the Wait List. Class roster will have more students than daily class count.
Mt. SAC Wait List

- Admissions and registration staff maintain an ESL database wait list:
  - Total per course/time
  - # contacted
  - # enrolled
  - # remaining
- Information is updated weekly to include new test-and-holds and number of students who were able to add.
Mt. SAC Weekly Report to Leadership

ESL REPORT

STUDENT ENROLLMENT STATUS
(Active Students Only)

- As of Week 12, the ESL department is at 90.93% enrollment fill rate for spring semester.
- 2,997^1 of 3,296^2 seats are currently taken.
- ESL classes are at an average of 29 enrolled students per class across the 103 class sections.

90%

- Data-driven decisions on managed enrollment take into account information such as this weekly enrollment status report.

- Report is distributed to ESL Leadership team which includes faculty, managers, and coordinators – major stakeholders.

- Report includes other data:
  - Class fill and retention rates
  - Percentage of students added to wait list weekly, those contacted, and those who enrolled
  - New students tested each week (Thursdays only)
  - And SSSP data -- comparison of orientation and student education plan services provided for incoming students

Mt. SAC Placement Test & Registration

• New student testing is done once a week, on Thursdays only

• Orientation, test, and enrollment services are bundled together:
  • Counselors – orientation
  • Counselors/Proctors – placement test
  • Registration Staff – enrollment or wait list

• Rarely is testing canceled; sometimes additional times are added to the day if 4 sessions are full

• First come, first served
