FROM: Alice Perez  
Vice Chancellor, Academic Affairs

SUBJECT: CHANCELLOR'S OFFICE CURRICULUM INVENTORY RELEASE OF 1.7.0 UPDATE

The Chancellor's Office continues to work closely with the California Community College (CCC) Technology Center regarding the technical issues with the Chancellor's Office Curriculum Inventory (COCI).

With the input received from the colleges, Chancellor's Office staff, California Community Colleges Curriculum Committee (5C) COCI Workgroup, and the CCC Technology Center, a strong focus has been committed to addressing current issues. In this regard, the CCC Technology Center released the COCI 1.7.0 Update on December 15, 2017. Technical fixes are listed in the [release notes](#). The 1.8.0 Update will be released in mid-January 2018.

The CCC Technology Center will continue to focus on additional areas of concern. With each update, it is the hope to have the system at the desired functionality that allows for more of a seamless effort for both the submitters and reviewers.

Additionally, the Chancellor's Office Management Information Systems (MIS) will be down from December 15, 2017 through January 3, 2018. Therefore, control numbers for courses and programs will not be generated until MIS is back on line.

The Chancellor's Office again would like to thank the colleges for their continued patience during the transition to the new curriculum inventory system.

Please continue to report COCI issues to [cociappsupport@openccc.zendesk.com](mailto:cociappsupport@openccc.zendesk.com). For questions, contact David Garcia at [dgarcia@cccco.edu](mailto:dgarcia@cccco.edu) or at 916-322-4192.
