December 10, 2012
9:00 AM – 12:00 PM

The Chancellor's Office for the California Community Colleges (CCC) will be conducting a 3 hour system-wide webinar on maintaining a quality distance education (DE) program in the CCC System. It is offered exclusively for DE programs in the CCC System. It is designed to provide colleges with comprehensive information about regulations, policies, and procedures impacting distance education programs in the CCC System. The webinar will be targeted to CIO's, District/College DE Coordinators, other curriculum officials, and individuals responsible for attendance accounting and reporting at each district. The webinar will address established DE standards, quality components, and things that districts should have in place to have a quality DE program. It will also cover the technical attendance accounting side of DE and potential annual audit implications. The webinar will feature presentations by local DE programs that speak first-hand to best practices and DE quality control processes.

Login information will be sent upon registration
