RE: Request for Applications- Institutional Effectiveness Partnership Initiative Technical
Assistance Program Grant

The California Community Colleges Chancellor's Office is pleased to announce the release of the Institutional Effectiveness Partnership Initiative Technical Assistance Program Grant Request for Application (RFA).

Background and Purpose:
The 2014-15 California Budget Act (Chapter 25, Statutes of 2014) authorized the chancellor of the California Community Colleges to utilize Proposition 98 General Fund to provide technical assistance to districts. Currently, the state budget includes $7.5 million in state funds for the continued, ongoing activities to help colleges and districts that request technical assistance and/or demonstrate low performance in key areas of operations through the Institution Effectiveness Partnership Initiative (IEPI) Technical Assistance Program.

The primary goal of the program is to help colleges and districts improve their fiscal and operational effectiveness and promote student success, while reducing accreditation sanctions and audit findings. This grant will manage a comprehensive technical assistance program to enhance institutional effectiveness and advance the Chancellor's *Office Vision for Success*.

Application Information:
The Institutional Effectiveness Partnership Initiative Technical Assistance Program Grant RFA instructions, application requirements, and other materials are available online and may be accessed at the Chancellor's Office website.
