

Question	Asker Name	Answer(s)
good afternoon	Donna Gustafson	-
The attachments for item 3.2 are not opening. Would you please upload openable PDFs?	Randa Wahbe	-
Hello. I have been abused at Fullerton College. I have been intimidated and threatened by employees and administrators. What should I do? I have been told by numerous people to get an attorney and go to the district	Esther Kim	Most complaints, grievances or disciplinary matters should be resolved at the campus level. More information can be found on our website: https://www.cccco.edu/Complaint-Process-Notice
I cannot	Esther Kim	-
President Epstein, Vice President Haynes, Chancellor Oakley, and members of the Board of Governors, I am John Stankas, the president of the Academic Senate for California Community Colleges and wish to express our support for this item, 3.2, and inform you that this has gone through the consultative process.	John Stankas	-
I have been treated badly by the administrators and employees	Esther Kim	-
I have been traumatized by them	Esther Kim	-
Item 3.6 - On behalf of the CCC Joint Caucuses and many of the Districts who adopted the Resolutions Affirming Equity and Anti-Hate, I want to thank the Chancellor's Office and the BOG for their support of these resolutions - Linda S Wah, Trustee, PACCD	Linda Wah	This item is not up for public comment at this time, please re-submit your comment once the period for public comment is open for this item. Otherwise, send your comment to ccastro@cccoco.edu
I have sent emails to ccastro and marc leforestier	Esther Kim	-
Mayra Cruz on behalf of the San Jose Evergreen Community College District Board of Trustees ITEM 3.6 (comment was also emailed) The SJECCD Board of Trustees approved on May 12, 2020 a resolution affirming SJECCD's unwavering commitment to student success and equity as we respond to and recover from the COVID-19 pandemic. COVID-19 has caused unprecedented hardship for residents of California in the areas of employment, increased food and housing insecurities, and marked demand for health care, which has disproportionately impacted our most vulnerable residents. Given that our student population and their families are especially vulnerable to COVID-19, SJECCD District reaffirms our commitment to identifying and eliminating barriers to equity and inclusion. The Board of Trustees of the San José Evergreen Community College District supports the Resolution Affirming the Board of Governors' Unwavering Commitment to Student Success and Equity in Response to COVID-19 Pandemic.	Mayra Cruz	-
Just want to underscore the importance of incentivizing students to become more involved in their community	Erick Orellana	-
3.6 What percentage of number of students that have completed an ADT have transferred to a CSU or UC, or other 4-year university?	Erick Orellana	I'd be happy to look into that for you. Please send me an email at sfisher@foundationccc.org and I will respond before the end of this week.
Thank You so much for all your support! I am one of those students that benefited from AB705.	Marjorie Blen	-
My name is Christian Rodriguez and I attend CCSF. As a member of SMAC I fully support this resolution and appreciate the board for coming up with a comprehensive resolution to not only address the achievement gaps present, but also recognizing the need to adjust these goals in an effort to help those affected detrimentally by Covid. I also congratulate you all on the progress made.	Christian Rodriguez	live answered

We cannot pull back! We need you more than ever. Our underrepresented and underprivileged are dealing with homelessness, food insecurity, and financial hardship. We need the BOG to commit to our most vulnerable students.	Marjorie Blen	-
May I just confirm that item 3.4 passed? Thank you!	Karen Jimenez	that is correct
I would like to submit a public comment request for action item 3.6. My name is Denise Castro, Program Coordinator of Student Making A Change, I support the Resolution Affirming the Board of Governors Unwavering Commitment to Student Success and Equity. Given the current public health pandemic, it is more critical now than ever to affirm a commitment to equity and continue to support underrepresented community college students. I ask you, Board of Governors, to support the resolution.	Denise Castro	-
3.6 Good Afternoon BOG, My name is Bryan Daley and I serve as the student trustee on the City College of San Francisco's Board of Trustees. I also work as a student fellow with Students Making A Change (SMAC). I have advocated for equity throughout the CCC system in both of these roles and have come to speak in support of the resolution presented, as part of agenda item 3.6. Chancellor Oakley's Vision for Success addresses the historical structural inequities, which the aforementioned resolution recognizes as a key factor in the disproportionate impact that COVID-19 has had on black and brown communities and other equity populations. Abandoning the letter and philosophy of the Vision for Success would only serve to redouble the impact of the pandemic on these communities; moreover, that course of action will serve to reverse the progress that this administration has made in closing opportunity gaps. Thank you for your commitment to embedding equity into the California higher education system.	Bryan Daley	-
Regarding 3.6As a student of color, in community college, and forever an advocate for education as a means of positive holistic change, I support the resolutions of the Board. Equity population students are going into academia with struggles that are then added to by the obstacles that come with simply being a college student. COVID-19 is making these gaps and disadvantages more stark, and it is encouraging to see the actions this Board has taken in an ongoing response to the systematic challenges observed. Thank you.	Trillia Hargrove	-
Item 3.6 - On behalf of the CCC Joint Caucuses and many of the Districts who adopted the Resolutions Affirming Equity and Anti-Hate, I want to thank the Chancellor's Office and the BOG for their support of these resolutions - Linda S Wah, Trustee, PACCD	Linda Wah	-
Can you confirm that Item 29 in 3.1 was approved? Thanks thanks!	LAOCRC LAOCRC LAOCRC LAOCRC	Correct -
Hi Christina - FYI - you're still clearly on screen.	John Hetts	-
What items will be resumed tomorrow?	Erick Orellana	Items 5.1-5.7 and 7.1
Many of the Peralta Classified and Faculty workforce would be happy to provide context for the district's history and problematic relationships. I am a new member of the DAS, and have taught at Laney College for twenty years. I have no 'axe to grind', nor do any of the people involved in DAS -- We all just want competent, collegial, consultative leadership.	Christopher Weidenbach	The public comment period for item 5.1 has concluded. You may provide additional comment during the public forum portion of this meeting under item 7.1.
5.2 Some California High School districts have found improvement in student access to financial aid through mandating a FAFSA form, in order to attain a High School Diploma. What can California Community Colleges do to ensure under-served students, like those in the African American community, can receive equitable access to financial aid and are made aware of the opportunities they can receive through a college degree?	Anonymous	-

Why is no one advocating for free college for all? Eliminate all the bureaucracy. Costs of college need to follow 1960 California Master Plan for Higher Education. Make it free. It was free until 1985. That \$5 fee cut participation rate by African American in half at California community colleges.	Leslie Smith	-
There are existing programs that do the work of our recommendations, however, African American/Black students have remained invisible. Our advisory group is intentional in the efforts to recruit, retain and support our student group. Focused attention is required, as efforts have not heretofore been targeted. On another level, and given the plight of K-12 with the pandemic might I suggest a collaborative between the CCD's and this system to have a more cost effective and efficient use of funds. There needs to be a real partnership with Adult Ed and Career Tech Ed Programs.	Janet Clark EdD	-
5.2 Black and African American Report. I hope CCCC would include independant colleeges in its efforts to increase transfers. These colleges often have greater resources to serves students.	Tracy Thomas	live answered
Is there anything that BOG and the State of California can do to incentivize, encourage or require Districts to implement any of the 6 Critical Recommendations to increase the success of African American students?	Joseph Williams	-
Re Agenda 5.3 The CCC libraries worked diligently with the state legislature and our CCCC to secure a statewide LSP. This project was deployed successfully (seemingly seamlessly) with 110 of 115 colleges participating. Please find it appropriate to expend funds to renew this subscription beyond Jan 2021 since this shared resource is one of the few tech tools beyond Canvas that truly facilities student access to services/resources in a consistent format. Thank you for your attention.	Marlene Forney	-
How are you planning to train needed healthcare workers and first responders if California community colleges adopt a completely online educational model. Why not copy UC and Stanford and go hybrid and allow our students to finish their programs and enter the workforce providing economic stability to their families and aiding all Californians?	Leslie Smith	This is not a webinar. If you have a public comment please specify what item you are commenting on and post your public comment.
Agenda Item 5A (Budget) -- The DOF and the Governor have placed the decision to fund the Library Services Platform into the hands of the Board. The trailer bill language directs the Board to set the budget for the new CCC System Support Program (\$104 million). Without funding from that source the project begins to unravel quickly. Please choose to provide funding for the Library Services Platform. Thank you.	Gregg Atkins	We look forward to the Council of Chief Librarians' partnership in state budget advocacy to include System Support in the final proposal.
All UC Chancellors are leading by example and taking a 10% pay cut will CCCC follow their lead?	Leslie Smith	-
Over 250 library faculty and staff have written to the board between yesterday and today to advocate for the systemwide Library Services Platform. This resource is critical to continuing support from our libraries to students most of whom will be continuing their studies online through the fall of 2020. Please support this project. Thank you.	Michelle Ohnstad	-
Item 5.1: Why is Peralta keeping its FCMAT response evidence secret (password protected)?	Anonymous	-
Item 5.1: Chancellor Stanback Stroud's view of participatory governance is extremely narrow. There is no collegial consultation as called for by Peralta Board Policy. Processes for institutional planning and budget development (#10 of the 10+1) are not vetted by the District Academic Senate. As of now Peralta does not have contingency plans or scenarios for the upcoming budget reductions. Budget planning if it occurs at all remains opaque. It is responsive rather than proactive.	Anonymous	This item has already been heard and the public comment period has ended. You can comment during our general "public forum" under item 7.1

<p>Daisy, I was trying to comment on budget: There was an announcement yesterday that only online education and then today talk about importance of workforce training to economic recovery, but healthcare workers and first responders CANNOT be taught solely online. As to the cut that is all about sharing the pain and prioritizing instruction and educational opportunity for all. Daisy, can you add to public comment? Are you really going to wait until after closed session for that?</p>	<p>Leslie Smith</p>	<p>-</p>
<p>Item 7.1 Hello President Epstein, Chancellor Oakley, and members of the board. My name is Jacob Couch, I am an American River College student and hold a few roles in shared governance. I would like to personally thank both student members, member Zaragoza and Fitzgerald, but in particular member Zaragoza who is sadly leaving the board. I met member Zaragoza at a BOG meeting a few months back and she inspired me to do more as a student leader, and for community college students as a whole. I hope that we may find a leader as impactful, intellectual, and inspirational as her to represent us in the future, thank you.</p>	<p>Vice Chair Region II</p>	<p>-</p>
<p>Many changes affecting our working conditions at Peralta were made without negotiations with the faculty union, which has filed a hefty Unfair Labor Practices complaint. As an example radical changes were made to our email system which made all of our jobs more complicated, added work to our loads, and prevented many of us from abiding by the Brown Act; these changes were announced after they were enacted. Multiple attempts at providing feedback were ignored or denigrated.</p>	<p>Fred Bourgoin</p>	<p>-</p>
<p>Item 5.1: The leadership style of Peralta's chancellor is secretive non-collegial, abrasive, divisive, and bellicose. She touts herself as an expert in critical race theory but weaponizes race; she flaunts her past ASCCC presidency but ignores senates.</p>	<p>Anonymous</p>	<p>-</p>
