The governor today announced [a new portal](#) to help parents find safe and licensed child care providers in their area. [MyChildCare.ca.gov](#) provides an interactive map of qualified licensed child care providers, and the tool is available in English and Spanish. Gov. Newsom today also called for [all state and local beaches in Orange County to temporarily close](#), saying the massive crowds at OC beaches last week was unacceptable. OC leaders call the decision an “abuse of power.” News circulated Wednesday night that a statewide beach and park closure was coming, a move Newsom appeared to step away from.

[You can watch the full update here.](#) (Please note: the broadcast begins around the 3:55 mark.)

[Los Angeles Mayor Eric Garcetti](#) on Wednesday announced that Los Angeles will offer [free COVID-19 testing](#) to any city resident who wants it, regardless of symptoms.

Modoc County on Friday [is expected](#) to defy state orders and lift its state-at-home order.

The Legislative Analyst's Office has released an [Overview of Federal Higher Education Relief](#), which breaks down how the CARES Act funding is expected to be distributed among California's colleges and universities.

Dr. Anthony Fauci, the nation's top infectious disease expert, says an [experimental antiviral drug called remdesivir](#) may be the first effective coronavirus treatment. [The FDA is expected](#) as early as today to grant emergency approval of the drug to treat COVID-19.

RESOURCES

The California Community Colleges Chancellor's Office and the Center for Urban Education are offering a [six-part webinar series](#) to provide strategies for faculty and administrators to exercise agency on behalf of the most vulnerable students. Webinars will be recorded and posted on the Vision Resource Center. The third webinar is:

Being Aware of Learning Opportunities and Constraints Posed by Online Teaching and Moving Towards Anti-Racist Practices

Thursday, May 7, 2020 from 12:00 - 1:30 p.m.

This webinar will address the “taken-for-granted” practices and assumptions that shape the online learning environment and ways in which they can be detrimental to the success of minoritized students. For example, many students only have access to a cellular phone and instructors are not considering how the materials they upload may become distorted on a phone. The current circumstances are overwhelming and it is easy for instructors to default to the students who have the know-how to navigate technology. [Register at this link.](#)

College practitioners can find COVID-19 resources, information, and community within the [Vision Resource Center](#). Create an account or log in. Under the “Connect” menu, visit “All Communities” and look for the “CCC | COVID-19 Resources, Tools and Discussion” section. Click “Join Community” to access the content within.
