## STATE AND NATIONAL GUIDANCE/EXECUTIVE ORDERS/NEWS

Gov. Gavin Newsom today gave an update on the state's response to the COVID-19 pandemic. (All news conferences are streamed *live at noon* on his [Twitter page](#) and the [California Governor Facebook page](#).) You can find more information on [California's COVID-19 website](#).

Among the headlines from today's update:

- California now has a [record high number of cases](#):
  - Single day cases: 12,807;
  - Seven-day average: 9,420;
  - Total cases statewide: 413,576, the highest number in the nation. There have been 7,870 deaths.
- The state has performed 6.6 million COVID-19 tests, including more than 127,000 tests on Tuesday. The seven-day test positivity rate is 7.6%.
- The state is [extending its contract](#) with manufacturer BYD to buy additional personal protective equipment (PPE), including 120 million N95 masks and 300 million surgical masks. Cal OES, the Governor's Office of Emergency Services, is now [preparing to send PPE to the 116 California community Colleges](#).
- Butte County is now the 35<sup>th</sup> county on the state's [watch list](#).

[You can watch the full update here](#). (Please note: the update begins around the 6:05 mark.)

California Health and Human Services Secretary Dr. Mark Ghaly said Tuesday [the state has too many cases](#) to realistically investigate and trace each new infection. The state has trained about 3,600 state workers to help counties with their contact tracing programs, though nearly two-thirds of those workers have not yet been assigned.

The Senate is expected to unveil a [\\$1 trillion coronavirus relief bill](#), which would likely include another round of stimulus payments and money for schools. But, deep divisions between Senate Republicans and the White House over the proposed inclusion of a payroll tax cut could stand in the way.

President Trump on Tuesday warned the pandemic will probably "[get worse before it gets better](#)," and urged Americans to wear a mask to help stop the spread.

The Trump administration will pay Pfizer nearly \$2 billion for a December delivery of [100 million doses](#) of a COVID-19 vaccine the pharmaceutical company is developing. It's the administration's largest investment yet in a vaccine that has not been proven effective.
