STATE AND NATIONAL GUIDANCE/EXECUTIVE ORDERS/NEWS

Gov. Gavin Newsom today announced California-based BYD North America has received certification from the National Institute for Occupational Safety and Health to produce N95 respirators for the state. The company is contracted to produce and ship 150 million N95 masks for California and the first shipment is expected to arrive in the coming days.

The governor on Friday signed an executive order to help increase the availability of over-the-counter drugs, such as hand sanitizer, and medical devices, such as respirators, ventilators and masks, that are all in high demand due to the COVID-19 pandemic.

The California Department of Public Health late Friday released updated guidance on reopening schools, child care centers, day camps and sporting events.

For the latest updates on how the state is responding to the coronavirus pandemic, you can find more information on California’s COVID-19 website.

State Superintendent of Instruction Tony Thurmond today released new guidance to help support public K-12 school leaders across the state as they work with their local health officers to plan for the safe reopening of campuses and classrooms this fall. The guidebook covers health and safety practices; instructional programs and models, including for special education and English learners; professional relationships and learning; mental health and well-being for staff and students; community engagement and parental support; early learning and care; and school services such as transportation and meals.

The U.S. officially entered a recession in February, ending the record 128-month expansion that started in June 2009. Experts say the economy peaked in February before the coronavirus pandemic spread throughout the country and prompted an unprecedented shutdown in economic activity.
