Newsom's Chief of Staff Ann O'Leary and philanthropist, environmentalist and businessman Tom Steyer, to chart a path forward on recovery in the wake of COVID-19. Read the full letter here.

The U.S. and Canada have agreed to extend the border closure for another 30 days.

Nearly 4 million stimulus payments will be sent to Americans on prepaid debit cards instead of as paper checks, the IRS and Treasury Department announced.

By tomorrow, all 50 states will have taken steps to reopen, just in time for Memorial Day. Here's how California compares to other states.
Chancellor Eloy Ortiz Oakley this week presented the State of the System report to the Board of Governors. Among the highlights: California community colleges over the past two years have increased the number of students who earn college credentials by 20%, meeting one of six goals articulated in the system’s Vision for Success ahead of schedule, and gaps between Latinx and white students in completion of transfer-level English and in attainment of Associate Degrees for Transfer have closed measurably. Colleges are making significant progress toward meeting the other goals as well. Data for the State of the System report was collected before the COVID-19 crisis, and Oakley said that despite deteriorating economic and budget conditions the system will continue to focus on ensuring that students from all backgrounds have the right opportunities and supports to succeed. Read the full news release here.

Chancellor Oakley spoke with Inside Higher Ed on how California community colleges are preparing for the fall, and how the system has become more flexible for students. Listen to the podcast here.
