May 6, 2020 – COVID-19 Update No. 38

During Teacher Appreciation Week, West Los Angeles College dental hygiene bachelor's degree class of 2021 shows appreciation to instructors.

## STATE AND NATIONAL GUIDANCE/EXECUTIVE ORDERS/NEWS

Gov. Gavin Newsom today gave an update on the state's response to the COVID-19 pandemic. (All daily news conferences are streamed *live at noon* on his [Twitter page](#) and the [California Governor Facebook page](#).) You can find more information on [California's COVID-19 website](#).

The governor today made several announcements, including:

- A new [COVID-19 testing website](#) allowing Californians to [find sites](#) in their areas. Newsom admitted not all areas are represented yet but says the state will work to add new sites to the map.
- An executive order [extending workers' compensation](#) to those who test positive for the novel coronavirus.
- An executive order to [waive the 10% penalty](#) on late residential and small business property tax payments for those unable to pay on time due to the coronavirus emergency.
- New guidelines for the Phase 2 reopening will come tomorrow.

[You can watch the full update here](#). (Please note: the broadcast begins around the 5:55 mark.)

The Sacramento Bee put together a very informative look at [how prepared California is to reopen](#).

Beginning today, anyone 18 years old and older in Sacramento County can get tested for coronavirus by [completing a screening survey](#) and making an appointment.

A [new report](#) from the Road Ecology Center at UC Davis says the state may lose as much as \$1.3 billion in revenue from the gas tax because of stay-at-home orders. The decline in driving has led to some positives, including a reduction in emissions and fewer car crashes.

The Trump administration has [reversed course](#) and now says the White House coronavirus task force will continue indefinitely.

Experts said today the [economic catastrophe](#) caused by the COVID-19 pandemic likely sent the country's unemployment rate in April to its highest level since the Great Depression and caused a record-breaking job loss. This comes as the government tomorrow will release the latest weekly report on applications for unemployment benefits. It is expected to show roughly 3.5 million people sought jobless aid last week, which would bring the total number of layoffs to nearly 34 million since shutdowns began seven weeks ago.

A [new study](#) shows people of color have not only been hit harder by the coronavirus than have Americans overall, but they're also bearing the brunt of the pandemic's financial impact.

#### **Being Aware of Learning Opportunities and Constraints Posed by Online Teaching and Moving Towards Anti-Racist Practices**

Thursday, May 7, 2020 from 12:00 - 1:30 p.m.

This webinar will address the "taken-for-granted" practices and assumptions that shape the online learning environment and ways in which they can be detrimental to the success of minoritized students. For example, many students only have access to a cellular phone and instructors are not considering how the materials they upload may become distorted on a phone. The current circumstances are overwhelming and it is easy for instructors to default to the students who have the know-how to navigate technology. [Register at this link](#).
