

# CTE Outcomes Survey

The Chancellors Office is providing **FREE** access to the CTE Outcomes Survey for all California community colleges. Institutions that participate in the survey gain valuable information about whether students translated what they learned into jobs and earnings gains.

## STATEWIDE RESULTS FROM 2016 FOUND:

**Students were most likely to stop taking courses because they had...**

- met their goals
- finished the program
- transferred
- got a job

**81%**  
found a job!

Full-time employment rates jumped from

**35%**

**52%**

More than 2/3 found jobs in a field similar to their studies

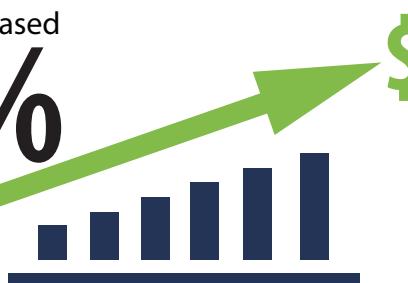

**90%**

were satisfied with their educational experience

Earnings increased

**41%**

**10%**

were self-employed

**10%**

were not looking for a job

**1 in 5**  
earned a third party credential

**17%**  
participated in internships or other work-based learning

Participation requires providing contact information on former students.
