

**Place Name of  
Apprenticeship Program Here**

This linkage agreement between the participating parties is designed to create a working partnership for the benefit of students, pre-apprentices and DAS registered on-the-job trainees who choose an apprenticeship education and training model as their career path.

The apprenticeship system is voluntary and students may participate in the program, conditioned upon acceptance and registration with an approved apprenticeship program sponsor. The sponsoring Community College District or California Department of Education Local Educational Agency and Apprenticeship Program Sponsor agrees to establish structured Related and Supplement Instruction (RSI) Apprenticeship Curriculum and may be combined with hands on or Other on the Job Training that will be offered to pre-apprentices and apprentices. Credit for acceptance into an apprenticeship program will be \_\_\_\_\_ and credit towards apprenticeship completion will be \_\_\_\_\_.

For purposes of RFA 17-192, The California Apprenticeship Initiative (CAI) Pre-Apprenticeship and Enhanced On-the-Job Training Grant Program, The Division of Apprenticeship Standards (DAS) and Foundation for California Community Colleges agrees to provide technical assistance to the school and employers in the development and registration of apprenticeship programs. These new apprenticeship sponsors, plus existing program sponsors will provide the apprenticeship opportunities for the students to achieve their career goals. DAS will register the student, pre-apprentice, or registered on-the-job trainee as an apprentice upon selection by an approved apprenticeship program sponsor and/or approved employer and will monitor the linkage to assure that the program partners fulfill the training requirements of the approved apprenticeship standards.
