INFORMATIVE DIGEST

This regulatory action is a first reading of proposed revisions to title 5 of the California Code of Regulations governing dual enrollment programs within the California Community Colleges.

The Chancellor's Office has identified two regulatory barriers to the dual enrollment of high school students in community college courses that are addressed in this proposal, and described below.

First, the proposed regulatory action would clarify that parental or guardian consent to student dual enrollment should not be required by community college districts each time a student enrolls in a dual enrollment course. The proposed regulatory action would establish that parental or guardian consent, once given, is effective until it is revoked. We understand that this clarification will eliminate substantial administrative burden at community college districts associated with maintaining and updating consents.

Second, the proposed regulatory action would prohibit community college districts from requiring student transcripts or social security numbers as a condition of dual enrollment. It is sufficient evidence of high school enrollment

and preparedness for the high school principal to recommend their students for dual enrollment, as is already required. In addition, the requirement of a social security number is an unnecessary barrier. Dual enrollment students do not receive financial aid, and undocumented students do not have social security numbers.

ESTIMATED COST OR SAVINGS OF PROPOSED AMENDMENTS

The estimated cost or savings of the proposed regulatory action are anticipated to be as follows:

Mandate on local agencies or community college districts: *None*.

Cost or savings to state agencies: *None*.

Costs to local agencies or community college districts for which reimbursement would be required pursuant to part 7 (commencing with section 17500) of division 4 title 2 of the Government Code: *None*.

Other non-discretionary cost or savings imposed on community college districts: *None*.

Cost or savings in federal funding to state agencies: *None*.

The proposed amendments to title 5 would result in no fiscal impact to local or state governments, nor will it have any fiscal impact on any federal funding.
