Apprenticeship Pathways Demonstration Project

Providing community college apprenticeship program students a direct path to credit certificates and degrees.

San Diego City College

Benefits

- ✓ Leads to greater social and economic mobility
- ✓ Awards credit for apprenticeship-related instruction and training
- ✓ Builds Credit for Prior Learning (CPL) pathways
- ✓ Encourages students to continue their education
- ✓ Supports California's economic growth
- ✓ Increases equity and access for students

California Community Colleges Chancellor's Office Investment

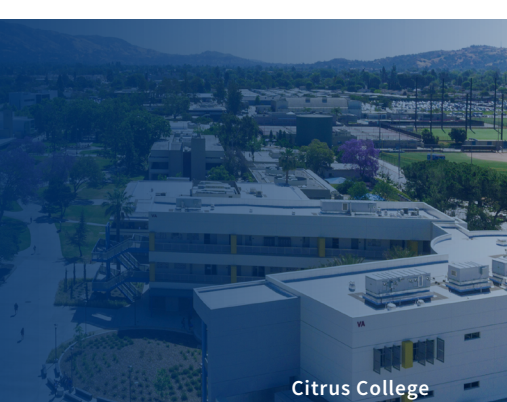

Two funding rounds

ROUND 1

\$2.4M awarded across 12 colleges

ROUND 2

\$1.3M awarded across 13 colleges

Citrus College

Student Impact to Date

2,855

students served

876

students pursuing apprenticeship-related CPL

91

apprenticeship-related CPL units awarded

VISION 2030

A Roadmap for California Community Colleges

Supporting Vision 2030

- Awarding credit to apprenticeship program students increases the number of earned certificates and degrees
- Expanding apprenticeship pathways increases the access to careers that pay living wages
- Utilizing the “Earn-and-Learn” model enables students the financial means to continue their education while gaining directly applicable skills

Sectors with credit-bearing pathways for apprenticeships include:

 Agriculture and Natural Resources

 Arts, Media and Entertainment

 Building and Construction

 Education to Workforce

 Energy, Environment and Utilities

 Healthcare

Program Success

“This Demonstration grant focused on the coordination needed to bring a very large and dispersed apprenticeship program into for-credit courses. It has been a huge success as we are bringing in more union halls across the state, enrolling more apprentices and creating processes to get it done smoothly.”

Sarah Hotzclaw,
Chabot-Las Positas Community College District

Chabot College
