INFORMATIVE DIGEST

The proposed regulatory amendments to Title 5, Sections 55052 and 55052.5, update and consolidate policies governing the award of credit for Advanced Placement, International Baccalaureate, College-Level Examination Program, and other external standardized examinations. They further clarify faculty and curriculum committee responsibilities, clarify college district requirements to apply state-adopted credit policies, ensure appropriate general education or elective credit is awarded when no direct course match exists, and continue to require clear transcript notation of credit earned by such examinations. The proposed changes include:

- Aligning district policies with statutory requirements by replacing permissive ("may") language with mandatory adoption of policies developed under Education Code §79500 for awarding AP credit.
- Clarifying faculty and curriculum committee authority by specifying that discipline faculty must approve examinations, qualifying scores, credit determinations, and applicable requirements under policies and procedures established pursuant to section 55001 (updating outdated references to §55002/55002.5).
- Requiring explicit awarding of credit for Cal-GETC and encouraging credit toward local GE or elective credit when no direct course or GE area match exists for AP, IB, CLEP, or other approved external standardized examinations.
- Expanding the scope of §55052.5 beyond IB and CLEP to include other external standardized examinations, with corresponding updates to faculty approval processes and credit-granting provisions.

The proposed regulatory amendments take into account feedback received at the October and December 2025 Consultation Council meetings, as well as recommendations of the California Community Colleges Curriculum Committee (5C).
