Section 55260 is added to new Article 5 of subchapter 3 of chapter 6 of division 6 of title 5 of the California Code of Regulations to read:

§55260. Correspondence Education Definition and Application.

Correspondence Education means education provided through one or more courses by a community college or district under which the college or district provides instructional materials, by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. Interaction between the instructor and student is limited due to separation, but is as regular and substantive as possible under the circumstances and may be initiated by both the student and the instructor.
Correspondence courses are typically self-paced, although a regular cycle of assignment submissions and delivery of feedback should be established for facilitated learning.
Correspondence education is not distance education.
