RE: 2020-25 Report on Noncredit Career Development and College Preparation

Dear Secretary Contreras,

Pursuant to California Education Code section 84760.5, the California Community Colleges Chancellor's Office is pleased to release the 2020-2025 Career Development and College Preparation (CDCP) Report on noncredit enhanced funding.

This report presents statewide trends in noncredit CDCP offerings, enrollment, funding, and related legislative impacts, including pandemic disruptions, a strong post-2020-21 recovery, and ongoing growth supporting workforce and higher education pathways.

For any questions regarding this report, please contact Raul Arambula, Dean of Academic Affairs, Educational Services and Support Division, at rarambula@cccco.edu.

Sincerely,

A handwritten signature in black ink that reads "Sonya Christian".

Sonya Christian, Chancellor

Enclosure: Report

CC:
Sue Parker, Chief Clerk of the Assembly
Office of Legislative Counsel
Department of Finance

2020-25 CAREER DEVELOPMENT AND COLLEGE PREPARATION REPORT

BACKGROUND

Delete Senate Bill (SB) 361 (Scott/chapter 631, statutes of 2006) provided community colleges funding for credit and noncredit full-time equivalent students (FTES), as well as the noncredit Career Development and College Preparation (CDCP) courses. The legislation was signed into law by Governor Arnold Schwarzenegger and filed with the secretary of state on September 29, 2006. The statewide minimum requirements that community colleges must meet to qualify for enhanced funding for Career Development and College Preparation courses are set forth in Education Code section 84760.5. The statute provides the fundamental framework for defining Career Development and College Preparation noncredit courses and classes that are eligible for the higher (“enhanced”) rate of funding.

Education Code section 84760.5 defines Career Development and College Preparation courses eligible for enhanced funding as:

- Those for which no credit is given, and that are offered in a sequence of courses leading to a certificate of completion; and
- Those that lead to improved employability or job placement opportunities; or
- Those that lead to a certificate of competency in a recognized career field by articulating with college-level course work, completion of an associate degree or transfer to a four-year degree program.

In addition, only those courses subject to subdivision (a) of 84760.5 are eligible for enhanced funding, which limits eligibility to the following:

- Classes and courses in elementary and secondary basic skills;
- Classes and courses for students eligible for educational services in workforce preparation classes in the basic skills of speaking, listening, reading, writing,
- mathematics, decision-making and problem-solving skills that are necessary to participate in job-specific technical training;
- Short-term vocational programs with high employment potential, as determined by the California Community Colleges Chancellor in consultation with the Employment Development Department utilizing job demand data provided by that department; and
- Classes and courses in English as a second language and vocational English as a second language.

Starting in fiscal year 2006-07, Education Code sections 84750.5(d)(3) and (d)(4), established a uniform rate for noncredit courses as well as an enhanced rate for noncredit courses in Career Development and College Preparation. Since 2006, the rates have been amended for cost-of-living adjustments as provided in the annual Budget Act. In 2014-15 the California State Legislature approved the enhanced noncredit rate to be equivalent to the credit rate beginning July 1, 2015. The approved 2015-16 California State Budget included \$49 million

to fund the rate increase. the enhanced CDCP rate per FTES is \$7,425.00 for 2024-25 and \$7,605.00 for 2025-26 (estimated proposed rate).

METHODOLOGY

This report contains a frequency count of the Career Development and College Preparation noncredit courses and certificates for fiscal years 2020-21 through 2024-25 as required by California Education Code Section 84760.5(e).

The Chancellor’s Office resources used for information include:

- California Community Colleges Chancellor’s Office Management Information System, which collects data from all the colleges
- Fiscal Affairs Division apportionment data

The Educational Services Division and support staff analyze and calculate data regarding the number and types of certificates, related courses, and FTES. These results are presented in tables by community college district.

NONCREDIT CDCP FTES

The table below provides a five-year comparison of noncredit CDCP FTES by community college district. the analysis is prepared in accordance with the requirement of Education Code section 84760.5(e)(1).

Table 1: Five-Year Comparison of Noncredit CDCP Full-Time Equivalent Students (FTES)¹

District	2020-21 FTES	2021-22 FTES	2022-23 FTES	2023-24 FTES	2024-25 FTES

1 Recalculation (“recal” or “revised annual report”) is described in CCR title 5 § 58003.4 as follows: “If a district determines, after filing its annual report, that the actual full-time equivalent student in the colleges of the district for the period of time between July 1st and June 30th is greater or less than the full-time equivalent student in the colleges reported in its annual report, the district shall report the appropriate increases and decreases in attendance for that fiscal year and the appropriate increases and decreases in apportionment shall be added or withheld in the next succeeding fiscal year pursuant to section 58134. This report shall be known as the “revised annual report.”

CDCP PROGRAM ANALYSIS

The following provides a brief analysis of the report on noncredit CDCP enhanced funding for 2020–2025. This analysis summarizes noncredit FTES data over the reporting period and identifies factors contributing to data volatility. Management has requested additional study to further assess the implications of these trends.

2020-25 FIVE YEAR REPORT SUMMARY

The increase in FTES shown in Chart A for academic year 2021–22, compared to the prior year, appears to be largely attributable to post-pandemic recovery effects. Following a significant decline during the height of the COVID-19 pandemic in 2020–21, noncredit CDCP FTES rebounded sharply in 2021–22, increasing by 8.75%. By contrast, academic year 2020–21 experienced a substantial decline of 11.47%.

This trend aligns with findings from the Legislative Analyst’s Office, which reported on February 11, 2022, that California community college enrollment declined by approximately 10%—or 115,000 Full-Time Equivalent Students—since the onset of the pandemic, falling from 2.1 million to 1.8 million students. These statewide enrollment losses correspond closely with the 11.47% decline in noncredit CDCP FTES during the same period, as reflected in Table 2.

As shown in Table 2, more recent data demonstrate a strong recovery, with a combined growth of 46% from academic years 2022–25. This growth mirrors the broader rebound in community college enrollment statewide, which has increased to 2.2 million students across 116 colleges.

Chart A: Five Year Data on Noncredit Full-time Equivalent Students

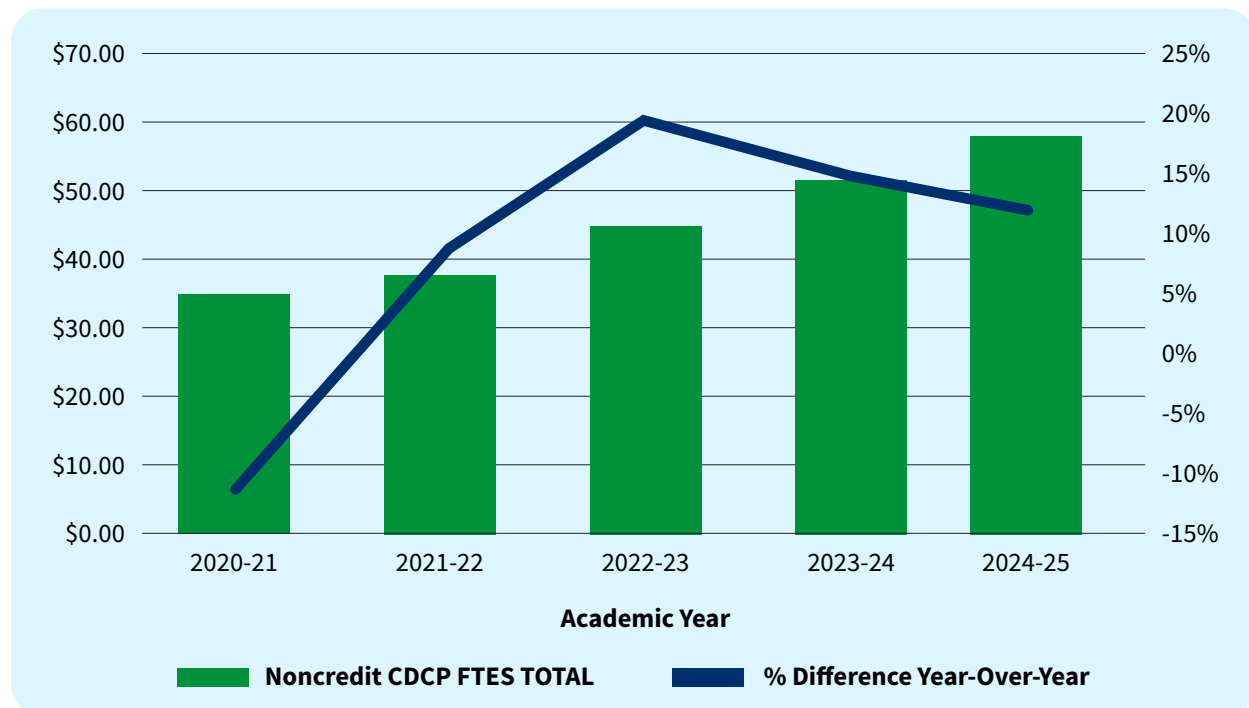

Table 2: Five Year Data on Noncredit Full-time Equivalent Students (Same information as in Chart A, but in a table format)

Academic Year	Noncredit CDCP FTES Totals	% Difference Year-Over Year
2019-20	\$39,129.44	-
2020-21	\$34,640.22	-11.47%
2021-22	\$37,669.69	8.75%
2022-23	\$44,950.15	19.33%
2023-24	\$51,702.45	15.02%
2024-25	\$57,973.64	12.13%

STRONG WORKFORCE PROGRAM AND NONCREDIT CTE

The Chancellor’s Office Strong Workforce Program Report for 2023–24 highlights significant progress among noncredit students. In 2022–23, 66% of noncredit enrollments were in noncredit CTE or workforce preparation courses. This reflects strong demand for flexible, non-degree training options that support upskilling, career transitions, and rapid entry into the workforce. The increase also signals a strong post-pandemic recovery and underscores the continued importance of flexible training programs that align with immediate labor market needs.
