Linda Vazquez	So many important insights shared in your remarks. There is a broad recognition of the importance of DACA but we forget that many recent community college students have not had access to DACA. Additionally, while incredibly valuable, it is heartbreakingly to know that even those with DACA status continue to feel afraid and unsure of their future. This is a call for permanent reform.
Linda Vazquez	For those who are interested in meeting with their local representatives, we encourage you to utilize this tool to guide your advocacy. Our Government Relations office is happy to help you with this effort - GovRelations@cccco.edu

Linda Vazquez	Great advice Dr. Gonzales. 1) Cut down bureaucracy 2) Connect students with mental health support and legal services 3) Build community relations 4) No office can do all things for all students
Rebecca Ruan-O'Shaughnessy	Thank you everyone.
Dr. Roberto Gonzales	And great music!
