Chancellor's Office Curriculum Inventory

Two separate databases: MIS and Curriculum

- A program/course is submitted to Curriculum for approval: new, modification, correction, etc.
- The length of time for the approval by Curriculum staff varies by the type of approval request.
- When the program/course is approved the curriculum data are sent to the MIS database.
- There are edit checks for the data upload. Records that do not pass the edits are rejected by the MIS database and an error report is sent to Curriculum. Errors must be corrected and the program/course records sent again to MIS for upload. This continues until the errors are resolved.
- Public Search Tool Active Courses and Programs http://curriculum.ccco.edu
