

The following survey is intended to solicit your interest and capacity. A multi-college Letter of Interest is highly encouraged although single-college applicant is welcomed. Please submit a separate Section B for EACH interested community college associated with the lead applicant. Only community college districts are eligible. All letters received will be posted on the web page associated with this Solicitation. This Statement of Interest is the first phase in the RFA process for this grant. Only colleges who submit a Statement of Interest and are deemed qualified will be invited to participate in the grant RFA.

SECTION B

Please respond to the following questions so we can better understand the demand level:

0	Name of College: Yuba Col	lege		
1	Describe where your college stands in the process (please check your stage of adoption)			
	Our college has interest in	n exploring or is in the process of exploring how better to XX		
	connect to the Maker mo	vement.		
	Our college has already ex	xplored and has made a commitment to the Maker		
	movement through formal action (e.g., resource commitment, Trustee vote, etc.).			
	Our college has explored,	committed to, and has already set up a Makerspace.		
	Our college has a team co	nsisting of at least a STEAM/STEAM faculty paired with a XX		
	CTE faculty to champion	this program on our campus.		
	Other:			

2	2 Expertise You Can Contribute to the Community-of-Practice (please check all that applies)				
		My college can help others explore, commit to, and set up a Makerspace.	,		
		My college can help others develop partnerships with industry/business/iHubs in	XX		
		order to 1) generate work-based learning opportunities for students and/or 2)			
		secure financial support.			
		My college can help others form/develop partnership with grade 9-12 institutions to	XX		
		facilitate early career exploration.			
		My college can help others consider instructional strategies, including but not			
		limited to 4C skills as well as technical skills, and how those strategies relate to			
		community college courses, certificates, and programs.			
		My college can help others bring together STEM/STEAM and CTE faculty to	XX		
		champion the program. Other:	XX		
		Dr. Daren Otten has significant previous experience in co-managing a			
		Industry/Academic Innovation and Entrepreneurship Lab and the North state iHub			
		while a faculty member at CSU, Chico. He is also well connected in the Angel			
		Investment Community in Northern California. Connecting the Maker community to			
		the needed CTE, Engineering/Science, and Business skills and faculty along with			
		building a culture of entrepreneurship is critical in the Yuba College service area.			
		We have commitment from Business, Manufacturing/Welding, and Engineering			
		faculty to support an Innovation Lab/Maker Space concept at Yuba College. The			
		curriculum faculty passion in Engineering, Drafting, Welding, Manufacturing, and			
		Business are well aligned to spur creativity and innovative uses of such a maker			
		space. We envision the lab as a showpiece and an asset for our students, high school			
		pathway partners, the local economic development organizations, and the			
		community as a whole.
