

Question	Asker Name	Answer(s)
<p>What is the main reason CCCAA does not give out scholarships to student athletes? Who makes that call? Once the market value is determined, why is it relevant? If the law permits students to engage in free market behavior, and the colleges cannot impede that activity, why is the market value relevant either collectively or individually?</p>	Ryan Copple	This was answered live
<p>The CCCAA and the colleges do not have a pending lawsuit, class action or otherwise. The value data is interesting, but not pertinent to the college's duty to comply, nor in monitoring students other than requiring they disclose such agreements.</p>	Keith Shackelford Irvine Valley College	live answered
<p>What would the restrictions look like concerning tobacco, alcohol, substance use, explicit/explicative content? The CCCAA C&amp;B identifies decorum that negates the use of these items. Can prospective SAs endorse or be sponsored by these types of companies and would it be up to the individual institution to or the CCCAA to manage compliance?</p>	Keith Shackelford Irvine Valley College	This was read aloud.
