

California Community Colleges

SYSTEM WEBINAR SUMMARY (Dec. 2023): CELEBRATING 2023 ACCOMPLISHMENTS

This webinar focused on Celebrating Courageous Leadership across the California Community Colleges and our accomplishments in 2023. Guest presenters included Cassandra Flandre-Nguyen, SSSCC; Cheryl Aschenbach, ASSCC; Wendy Brill-Wynkoop, FACCC; Eric Ramones, ACCCA/ACHRO; Mark Sanchez and Zaneta Salde Encarnacion, Southwestern College.

What are Key Accomplishments of Consultation Council Members in 2023?

- SSSCC: Remarkable turnout of ~400 students at recent [Advocacy Academy](#) event and significant strengthening of our connections with students across the system.
- ASSCC: Ongoing commitment to Inclusive Diversity, Equity, Access, and Accountability (IDEAA), establishing [Strategic Directions 2023-2026](#), collaborating with intersegmental partners on [CalGETC](#) and [transfer alignment](#), delivering high-impact professional learning events, and planning for many [more](#) in 2024 to support Vision 2030.
- FACCC: Sponsored successful legislation that adds MESA to statute and increases funding ([SB 444](#)) and removed barriers for students who use an ITIN ([SB 467](#)), and planning to support Vision 2030 through offering scholarships for the [Great Teachers Seminar](#) and our [legislative advocacy](#).
- ACCCA/ACHRO: Enhanced our partnerships with many groups, focused on a [pipeline](#) for faculty and staff to become administrators, intentional efforts to [embed DEIA](#) in our programs and conference, developed a Social Justice Career Advancement Program (information to come!), and helped with EEO diversity efforts including training modules.

What are Some Key Opportunities Systemwide for 2024?

- The state of our system is strong, but the state of our untapped opportunity is even stronger – 80% of high school students not yet in dual enrollment, 6.8 million Californians with high school diploma but no college degree are just two examples.
- It's the era of partnerships, and we're mobilized to work with industry, labor and nonprofits to bring education and career training to those who need them most.
- Well positioned to play a central role in climate action, a leadership role in strengthening the care economy, and engaging fully in generative AI.

How is Southwestern College Approaching [Vision 2030](#)?

- Positive things are happening - spring enrollment is up and so is Pell Grant receipt/disbursal; expect to exceed pre-pandemic enrollment by fall 2024.
- The college is participating in San Diego Regional EDC's [2030 Inclusive Growth Framework](#) focused on adding 20,000 skilled workers per year to the region's talent supply through investing in Latino and Black student success.
- The college is focused on challenging our systems and structures we've been using for a long time that have not been working to achieve progress for students of color.
- Partnerships are a big part of our efforts to achieve regional goals, including the [University Now Initiative](#) in partnership with the City of Chula Vista, employers, and education partners to identify the academic programs needed to meet regional workforce demand using the [Talent Pipeline Management](#) model.
- The initiative includes strategic partnerships with [public](#) and [private](#) universities to increase bachelor's degree options for our students. We are identifying opportunities to create needed programs that do not exist through collaborations or our own baccalaureate degree programs.
- [AB 91](#) offers new options for our bi-national region and for cross-border educational partnerships and international learning experiences for our students.
- The college is working to maximize financial aid and reduce units to completion, including a partnership with [National University](#) for a free bachelor's degree with ADT and a [partnership with Sweetwater USD](#) on STEM Early College dual enrollment.

What are Some Opportunities to Learn About Important Work of the System?

- See the opening slideshow of the system's 2023 accomplishments at the beginning of the recording for this [webinar](#)
- Register for 2024 systemwide webinars – first one will be on January 10 (registration page available soon!)
- First Virtual Student Housing Professional Development Forum, January 25, 2024, 11:00 AM-12:00 PM
- [Equitable Hiring Practices Curriculum](#) *
- [Equity-Centered Counseling Foundations](#) *
