Virtual Clinical Simulations

i-Human Patients by Kaplan: Bridging the Gap Between Theory and Practice

- **Interactive** virtual patient simulations that provide realistic clinical experiences.
- **Aligned** with Next Generation NCLEX and AACN Essentials, ensuring curriculum relevance.
- **Personalized** learning and feedback to guide student progress and enhance understanding.
- **Flexible** integration into any curriculum, offering individual or group learning opportunities.

Key Benefits for Nursing Students

- **Build** clinical confidence by practicing decision-making in realistic, risk-free scenarios.
- **Develop** critical thinking and clinical judgment skills through diverse interactive cases, including high-risk, low-frequency scenarios.
- **Enhance** communication and interpersonal skills, from patient interviews to documenting care with self-paced, consistent experiences.
- **Receive** personalized feedback and guidance to improve performance and understanding.

Key Benefits for Nursing Faculty

- **Seamlessly** integrate engaging and effective simulation-based learning into your existing curriculum.
- **Improve** student outcomes and prepare them for success on the NCLEX and in clinical practice.
- **Track** student performance, identify knowledge gaps, and measure the effectiveness of your simulation program.
- **Demonstrate** alignment with Competency-Based Education requirements through detailed reporting and analytics.

Experience i-Human Patients

Let's explore the platform and see how it can transform your nursing program.

- Contracting Made Simple
- *Yes, You Can Start This Spring!*

Q & A

KAPLAN

The logo features the word "KAPLAN" in a bold, white, sans-serif font. A white curved line, resembling a stylized "U" or a protective arc, is positioned below the text, starting from the left side of the letters and ending at the right side.
