INFORMATIVE DIGEST

The Chancellor's Office and the California Community Colleges Curriculum Committee (5C) have been reviewing and revising these regulations since 2020, when the Chancellor's Office and 5C brought forward the regulatory recommendation to institute an Ethnic Studies course requirement in Section 55063 (the Board of Governors unanimously approved that revision at the July 2021 Board of Governors meeting). The 2021 revisions streamlined and reorganized Section 55063, but it was not holistically reviewed and revised. The Chancellor's Office and 5C committed to complete that more holistic review and have done so over the past two academic years. This present proposed regulatory action is the culmination of that work, which includes field vetting with amendments to the Title 5 regulations to bring them into alignment with current legislation, allow for innovation in curriculum development, and streamline and simplify requirements for students.

Specific amendments include:

- Removing the requirement of Elementary Algebra as a prerequisite for a course to be approved to meet the mathematics competency;
- Clarifying definitions of course "completion" (student receives credit) and course "satisfactory completion" (student receives "C" or better or "P");

- Allows districts to calculate Grade Point Average (GPA) solely on courses that satisfy degree requirements when a student earns over 60 units (for local degrees);
- Clarifying that a course may be used by a student to meet a general education area, a major/area of emphasis requirement, and a competency demonstration;
- Adding language from Section 55064 regarding the use of noncredit courses to fulfill credit requirements as a form of credit for prior learning;
- Removing references to specific disciplines and adding language focusing on competencies students should be able to demonstrate;
- Alignment with California General Education Transfer Curriculum (CalGETC) pattern;
- Clarifying that Ethnic Studies courses are Baccalaureate-level courses; and
- Clarifying that students who have been awarded a bachelor's degree from an institutionally-accredited institution (new United States Department of Education nomenclature) shall be deemed to have fulfilled the general education course requirements for the associate degree.

The changes to the regulatory action since first reading clarify the courses that are appropriate to complete associate degree ethnic studies requirements.

ESTIMATED COST OR SAVINGS OF PROPOSED AMENDMENTS

The estimated cost or savings of the proposed amendments are anticipated to be as follows:

Mandate on local agencies or community college districts: *None*.

Cost or savings to state agencies: *None*

Costs to local agencies or community college districts for which reimbursement would be required pursuant to part 7 (commencing with section 17500) of division 4, of title 2, of the Government Code: *None*

Other non-discretionary cost or savings imposed on community college districts: *None*

Cost or savings in federal funding to state agencies: *None*
